

**Mondiale VGL media release**

**For immediate release**

**4 July 2024**

## **Mondiale VGL acquires Interunion**

Mondiale VGL is pleased to announce it has acquired the Interunion business, a principal provider of air, sea and land transportation, warehousing, logistics and domestic transportation in Southeast Asia.

Prior to the acquisition, Mondiale VGL held an existing stake in Interunion and the two companies have partnered together since 2012.

The acquisition was a logical next step for both parties and will further enhance opportunities for the customers of both organisations to access a wider network of global offices both in Southeast Asia via Interunion's network and globally with Mondiale VGL.

Interunion operates in five rapidly growing markets in Southeast Asia (Singapore, Indonesia, Malaysia, Thailand and Vietnam).

The Interunion team, service offering, branch network and brand will all remain the same, and there will be no change for customers or agents on a day-to-day operational level.

Mondiale VGL is a growing freight forwarding company that employs over 1500 staff across 56 offices in New Zealand, Australia, Asia, Europe, and the USA, supported further by over 500 agency offices worldwide.

Mondiale VGL has been focused on building a global supply chain operation with its roots in the Asia Pacific region.

The Interunion acquisition supports this strategic objective well and further extends Mondiale VGL's existing presence in the region alongside its customer service offering.

### **About Mondiale VGL**

Mondiale VGL is Oceania's leading privately owned sea freight forwarder and a significant player in the global supply chain solutions sector.

Through a strong network of industry relationships, Mondiale VGL provides access to the world's most critical trade routes for a large, diversified group of customers operating in a variety of industry sectors across New Zealand, Australia, Asia, Europe, and the USA.

The company was established through the merger of two of the largest freight companies in New Zealand and Australia: Mondiale Freight Services Ltd and VISA Global Logistics Pty Ltd (VGL), in 2021.

Mondiale VGL acquired South Australian-based customs and logistics business, Customs Agency Services (CAS), in December 2021.

Today, Mondiale VGL continues to be owned by founding shareholders from both Mondiale Freight Services and VISA Global Logistics, alongside Direct Capital and ACC.

Mondiale VGL is proud to employ over 1500 staff across 56 offices in New Zealand, Australia, Asia, Europe, and the USA, and is supported by over 500 agency offices worldwide.
